oluwanifesimi.kukoyi15@gmail.com

EDUCATION

City College of New York
Bachelor's degree in Computer Science

AUGUST 2021 - AUGUST 2025(EXPECTED)

PROJECTS

Portfolio Page

- Developed a personal portfolio website using React and CSS and deployed using Netlify
- Implemented React-Router to navigate through the web app efficiently
<http://www.okukoyi.com/>

Drum Kit

- Created a “Drum Kit” web app using JavaScript, CSS, and HTML
- The app allows users to hear drum sounds by clicking on images or using the keyboard.
<https://olukukoyi.github.io/drumkit/>

AirBnb Clone

- Created a clone of the Airbnb web app using React Js and CSS. Implemented react-router so users are able to navigate through the app
- Allows users to view houses and use a calendar to search for houses that are available at a specific time
<https://wonderful-engelbart-a0c508.netlify.app/>

Hulu Clone

- Created a clone of the Hulu web app using React Js and CSS.
- Implemented functionality to fetch movies from “The Movie DataBase” API and display movies depending on which category the user wants to view.
<https://olukukoyi.github.io/HuluClone/>

NYC Food Locations

- Created a website “NYC Food Locations” using Next Js, CSS, and MongoDB;
- Created search functionality which fetches information from MongoDB database
- Implemented dynamic updating of web app when new information is sent to the MongoDB database
<https://nyc-food.vercel.app/>

TinDog

- Created a website “Tindog” using CSS and HTML;
- The app allows users to find dogs, view referrals and reviews from previous users
<https://olukukoyi.github.io/Tindog/>
